IIT (ISM) DHANBAD — MOBILE APPLICATION GUIDE

JEE Admission & Payment Quick Walkthrough Guide

Summary of Execution Phases

■ **PHASE 1: Initial Applicant Login:** Authenticate access by providing your JEE (Adv) Roll Number, Registered Mobile Number, and Authorized Email String credentials. Submit data using the primary Login action button container.

■ **PHASE 2: Fee Payment & Portal Transition:** Access your personalized dashboard area. Choose the 'Pay Admission Fee' action trigger. The interface immediately opens an external secure web layer window context (jeea.iitism.ac.in). Choose your target configuration provider option (NetBanking, Card, UPI) on the official secure payment bank terminal framework and finalize your transaction execution pipeline securely.

■ **PHASE 3: Status Refresh & Registration:** Exit your checkout portal instance, close out background instances completely, or use the application refresh workflow mechanism. Re-opening forces database state reads, rendering the explicit green validation status message: 'Fee has been Paid. Please Proceed With Registration'. The panel updates to show a fresh 'Registration' navigation trigger link button item.

■ **PHASE 4: Sequential Form Module Completion:** Click through the Registration Panel view frame. Fill in values parameter-by-parameter in exact sequential chronological layout ordering context until solid validation indicator checkmarks illuminate across all sections:

- **1. Personal Details** – Populate student metric data, name strings, and basic biological field elements.
- **2. Other Details** – Complete localized configuration categories, classifications, and reservation profiles.
- **3. Parent Details** – Provide legal guardian identity records, primary cell lines, and current address fields.
- **4. Fee Details** – Verify standard systemic balance configurations and link successful routing token transaction receipts.
- **5. Download Registration Slip** – Generate your final confirmed admission registration proof file copy.
- **6. Download Fee Receipt** – Save out the official validated financial transaction clearing certificate receipt voucher.

Quick Operational Troubleshooting Notes

- Verify transaction settlements inside your sliding navigation drawer view layer tools ('SBI Transaction Tracking' / 'Track Your Payment' dashboards) if payment latency lags occur.
- File real-time operational or pipeline disruption updates inside the dedicated 'Payment/Technical Complaint' ticket channel if state changes fail to load after system cache resets.
