

## FIRE

1. In case of Fire, no matter how small it is, rush to the nearest fire call point and break glass and call for help. In the meantime try to control the fire by using fire extinguishers.
2. Use only right type of fire extinguisher for a particular fire. For this, familiarise yourself with the different types of fire extinguishers and their use.
3. Never use water on an electrical fire.
4. Do not throw flammable / solvents in the sewage drains / wash basins.
5. Do not smoke in prohibited areas.
6. Remove immediately your clothes if they are soaked with oils or solvents
7. Fire is a good source of heat energy if let loose may destroy property.
8. Fire is a good servant but bad master.
9. Inform the fire department about the fire extinguishers that you have used to put off the fire, because they need refilling.

Familiarise yourself with  
the different types of  
fire extinguishers
