PRESS-RELEASE

IIT (ISM) Alumnus-Led Company Minimac Systems Receives Three Prestigious National Awards

IIT (ISM) Dhanbad congratulates **Mr. Anshuman Agrawal**, alumnus of the institute (2001–2005 batch), and his company **Minimac Systems Pvt. Ltd.**, on receiving three prestigious national recognitions for innovation, sustainability and customer excellence.

Minimac Systems has been honoured with the following awards:

- **JSW-ToI 13th Earth Care Award 2025** under the category *Emerging Business in Climate Action*.
- **FICCI RECEIC Award 2025** under the category *Resource Efficiency and Circular Economy Innovations (Emerging Category)*.
- **Rosefield Award 2025** for *Customer Service Excellence*.

Founded by Mr. Anshuman Agrawal, Minimac Systems is a deep-tech circular economy company working in the field of industrial lubricant management. Through innovations in lubricant circularity, reliability engineering and industrial decarbonisation, the company is helping industries improve operational efficiency while reducing environmental impact.

The recognitions acknowledge the company's contribution towards promoting sustainable industrial practices, resource efficiency and climate action in India. Minimac has developed innovative solutions aimed at extending lubricant life, improving equipment reliability and supporting circular economy principles across industrial sectors. The achievement holds special significance for IIT (ISM) Dhanbad, as the foundation of the company's journey can be traced back to the engineering education and industrial exposure gained by its founder during his years at the institute. The company has also strengthened its association with the institute through a recently signed Memorandum of Understanding (MoU) for establishing the **Minimac Centre of Excellence in Fluid Testing and Analytics** at IIT (ISM) Dhanbad. The proposed centre, fully supported by Minimac Systems, will focus on fluid engineering, oil analytics, predictive maintenance, condition monitoring and intelligent maintenance systems.

Speaking on the occasion, **Mr. Anshuman Agrawal, Founder and CEO, Minimac Systems Pvt. Ltd.**, said, *"These recognitions reaffirm our belief that lubricant circularity can play a significant role in industrial decarbonisation. The engineering foundation and industrial understanding developed during my years at IIT (ISM) Dhanbad have been instrumental in shaping this journey. We remain committed to advancing sustainable industrial practices through innovation and technology."*

IIT (ISM) Dhanbad extends its best wishes to Mr. Anshuman Agrawal and the entire team of Minimac Systems for their continued success and contributions towards building a more sustainable and environmentally responsible industrial ecosystem.

Rajni Singh
Dean (Corporate Communications)
