IIT (ISM) Dhanbad Celebrates World Environment Day 2026 with Sit-&-Draw and Poster Making

To mark World Environment Day 2026, the EIACP Programme Centre (RP), Department of Environmental Science & Engineering, IIT (ISM) Dhanbad organized a Sit-&-Draw and Poster Making Competition at Rooms 107 and 108 of the Student Activity Centre (SAC). The event was conducted under the global theme "**Climate Action**" and the campaign **#NowForClimate**, with the objective of fostering environmental awareness and encouraging creative expression among young participants.

The competition was inaugurated by **Dr. Shekhar Chintamani Mande, President, Indian National Science Academy (INSA)**. The inaugural function was attended by **Prof. Sukumar Mishra, Director, IIT (ISM) Dhanbad; Mrs. Sakuntala Mishra, President, Deepti Ladies Club, IIT (ISM) Dhanbad; Prof. Alok Das, Dean (Innovation, Incubation and Entrepreneurship); Prof. Alok Sinha, Head, Department of Environmental Science & Engineering; Prof. Manish Kumar Jain, Chairman, JEE (Advanced) 2026; Shri Prabodh Pandey, Registrar, IIT (ISM) Dhanbad**, along with faculty members, officers and staff members of the Institute.

The event witnessed enthusiastic participation from students across various age groups. Out of around **220 registrations**, nearly **197 participants** took part in the competition. Participation included approximately **70 students in Category-I, 45 in Category-II, 40 in Category-III, 30 in Category-IV and 12 participants in Category-V**.

The competition featured five thematic categories designed according to the age groups of the participants. Themes included "**Clean Earth, Happy Me**", "**Reduce Waste, Protect Nature**", "**Beat Plastic Pollution**", "**Waste Management for Climate Action**", and "**Circular Economy and Resource Conservation**." Through drawings and posters, participants showcased their understanding of environmental challenges and highlighted innovative ideas for sustainable living, resource conservation and climate action.

Addressing the gathering, the dignitaries emphasized the importance of environmental stewardship and the role of young minds in shaping a sustainable future. They appreciated the participants for using art as a medium to communicate messages of environmental responsibility and climate consciousness.

The competition provided a vibrant platform for school, undergraduate and postgraduate students to creatively express their commitment towards environmental protection. The artworks reflected growing awareness among the younger generation regarding issues such as waste reduction, plastic pollution, recycling, circular economy and sustainable resource management.

The Department of Environmental Science & Engineering, through the EIACP Programme Centre (RP), continues to undertake various outreach and awareness initiatives aimed at promoting environmental education and encouraging community participation in sustainable development.

The event concluded with appreciation for all participants, teachers, parents and organizers who contributed to the successful celebration of World Environment Day 2026 at IIT (ISM) Dhanbad.
