PRESS RELEASE

Five day GIAN course on Functional Material and Heterogeneous Catalysis launched at IIT (ISM)

A five day GIAN Course on Functional Material and Heterogeneous Catalysis was inaugurated on December 11 by Prof JK Pattanayak, Director IIT (ISM) at Executive Development Centre of the institute. Altogether 38 participants of the course will learn the intricacies of Functional Material and Heterogeneous Catalysis from the experts like Prof Emiel J M Hensen Full Professor: Eindhoven University of Technology Netherland and others.

Prof Biswajit Chowdhury of Department of Chemistry and Chemical Biology who was present during the inauguration of workshop as course coordinator along with Prof Sagar Pal, Dean, Research & Development and others said, "Global Initiative of Academic Networks" (GIAN) in higher education is a program of the Ministry of Human Resource Development to invite accomplished scientists and entrepreneurs living abroad to give short courses at premiere institute of India.
