PRESS-RELEASE

IIT (ISM) Dhanbad Conducts Day-Long Training Under the Rashtriya Karmayogi Program

IIT (ISM) Dhanbad today organized a **day-long training program under the Rashtriya Karmayogi Program** at the **Conference Hall of the Administrative Building**, reinforcing the Institute's commitment to strengthening a culture of *Seva Bhav*, accountability, and citizen-centric service. The programme witnessed the presence of **Prof. Sukumar Mishra, Director**, and **Prof. Dheeraj Kumar, Deputy Director**, along with senior Deans, former Deans, distinguished faculty members and the **Institute Registrar, Shri Prabodh Pandey**.

The training was **facilitated by Shri Ranti Dev Sharma, Joint Registrar (lead Trainer)**, and **Shri Sanjay Singh, Deputy Registrar (Master Trainer)**, who conducted a series of structured sessions designed to deepen administrative understanding, enhance behavioural competencies, and encourage a reflective approach to institutional functioning. Key academic leaders including **Prof. Rajni Singh, Dean (Corporate Communications)**; **Prof. Mritunjay Kumar Singh, Dean (Academic)**; **Prof. Sarat Kumar Das, Dean (Faculty)**; **Prof. Amit Rai Dixit, Dean (Infrastructure)**; and **Prof. Keka Ojha, Dean (Continuing Education Program)**, along with other senior faculty members, actively participated in the programme.

The *Rashtriya Karmayogi Program*, a major national initiative, aims to transform traditional administrative practices into **empathetic, efficient, and citizen-oriented systems**. The training modules encouraged participants to reflect on their professional roles through situational exercises and team-based activities, emphasizing alignment of individual responsibilities with broader national objectives. Key themes of **public service orientation, skill enhancement, professional accountability**, and adoption of a **citizen-first mindset** were integral to the day's proceedings.

The programme also emphasized the overarching vision of **Mission Karmayogi**, which promotes a sustained culture of **continuous learning** through digital platforms enabling flexible, anytime-anywhere capacity building. The cascading model—where **Master Trainers subsequently mentor additional groups of participants**—was highlighted as a mechanism to ensure consistent and long-term institutional impact.

Rajni Singh
Dean (Corporate Communications)
