IIT (ISM) Dhanbad to Celebrate World Environment Day 2025 with a Focus on Ending Plastic Pollution

The EIACP Programme Centre at the Department of Environmental Science & Engineering, IIT (ISM) Dhanbad, is organizing a series of events to commemorate **World Environment Day** on **Thursday, June 5, 2025**.

This year's theme, "**Ending Plastic Pollution**", aligns with the global campaign **#BeatPlasticPollution**, which urges individuals, institutions, and communities to take decisive steps toward eliminating plastic waste at its source. In support of this vital cause, the Centre will host a **Sit & Draw / Poster Making Competition**, aimed at encouraging students to creatively depict solutions and raise awareness about the environmental dangers posed by plastic pollution.

This initiative is designed to inspire young minds to think critically about sustainability and foster environmental consciousness from an early age.

The celebration will also include a **Plantation Programme**, symbolizing a collective commitment to environmental protection and the promotion of climate resilience. By planting trees and greening the campus, the initiative reinforces the importance of nature-based solutions in combating environmental challenges.

Through these activities, IIT (ISM) Dhanbad reaffirms its dedication to environmental stewardship and community engagement in tackling one of the most pressing issues of our time.
