PRESS RELEASE

36 hour Internal Hackathon for Smart India Hackathon kickstart at NVCTI, IIT (ISM)

Intended at selecting teams to represent IIT (ISM) at upcoming Smart India Hackathon 2023, the innovation hub of IIT (ISM), Naresh Vashisht Centre for Tinkering and Innovation Center (NVCTI) of the institute is organizing the Internal Hackathon SIH 2023 from September 26th to September 28th.

Led by Prof. Saurabh Srivastava as Single Point of Contact the event being organized on the 4th floor of NVCTI under the guidance of Prof. Pankaj Mishra, Acting Dean of Innovation, Incubation and Entrepreneurship, is being participated by 200 students representing around 40 teams. The event is also aimed to harness innovation to address real-world challenges.

“The solutions generated during this internal hackathon have the potential to make a significant impact on society. Each participating team is dedicated to providing innovative and practical solutions that align with the priorities and needs of the ministries involved” said Prof Pankaj Mishra.

“The outcome of this event will not only reflect the ingenious problem-solving capabilities of these young minds but also contribute to the development of actionable solutions for the betterment of our nation, the top 30 teams will have the honor of representing IIT ISM Dhanbad at the prestigious Smart India Hackathon 2023 Grand Finale” further said Prof Mishra.

“This national-level competition will bring together the brightest minds from across the country to showcase their” summed up Prof Mishra

Rajni Singh
