PRESS RELEASE

Shri M Srikanth, Mission Director, Chandrayaan-3, ISRO divulges relentless work day and night for four years as part of a team as mantra of success during his address to students at IIT (ISM) as part of Concetto'23, the annual techno management fest of the institute.

Shri M Srikanth, Mission Director of Chandrayaan- 3, ISRO who was in IIT (ISM) Dhanbad today to participate in Concetto'23 the annual techno management fest of the institute said, "We at Indian Space Research Organization worked day and night continuously for four years as part of a team forgetting our family for the mission and the when we ultimately succeeded we are looking for next mission"

He also lauded the students and faculty members of IIT (ISM) and said , "Many students of premiere technological institutes including IITs are working in ISRO and more will join"

Responding to media queries regarding in the inspiration for mission after his guest talk at Penman Auditorium he said "In government organization the inspiration comes from the management and when the management entrusted with a task with a trust we put all our efforts to complete in on time.

Prof JK Pattanayak, Director of IIT (ISM), while talking to media said "The students of the campus really enjoyed the inspiration speech of Shri M Shrikanth and we can't express the feeling at the institute in words"

"We have learnt from him to work as a team relentlessly as part of a mission until success in achieved" further said Prof Pattanayak.

Prof Dheeraj Kumar Deputy Director, IIT (ISM) said "Earlier the students used to invite actors and vocalist as guest during the different festivals in the campus but for the first time they have invited a scientist of the stature of Shri M Srikanth that speaks volumes about his popularity and it proves that he has turned out to be more than a celebrity for the youth of the country"

Meanwhile, the technical acumen and innovative thought process of more than 4000 participants of over 100 technical institutes came under the scanner as they competed with each other in wide range of technical events including cosmelligence, trailblaze, sky is the limit, sailing in simulation, survival of chemist, electrodesign battle, bear the load, astromaze, mathbee, robo war etc at different venues of IIT (ISM)

In other popular event of day, Sandipan Chattopadhyay, founder and CEO of Xelpmoc Design & Tech held at Golden Jubilee Lecture Theatre, a large congregation of students lined up to listen to his lecture. Chattopadhyay during his elaborate talk underscored the significance of data driven business model.
